

HERITAGE EDITION DISPLAYS

A Gift of Sacred Art

The Heritage Edition is an exquisite fine art reproduction that gives people around the world an opportunity to experience how *The Saint John's Bible* captivates the senses and inspires unique personal reflection as it imparts the word of God. Designed to be consistent with the themes found in *The Saint John's Bible*, each display and storage option will conserve the volumes of the Heritage Edition for centuries to come.

You can showcase and protect your volumes with display and storage options designed especially for the full-size, signed and numbered limited editions. These quality cabinets and viewing stands are handcrafted by Saint John's Abbey Woodworking. Four options are available to fit your gathering space, library or home.

Saint John's Abbey Woodworking is an apostolate of Saint John's Abbey. The woodworking tradition is based on Benedictine principles of spirituality, stability and stewardship of the land. Local artisans — both monastic and lay — have designed and crafted practical, durable, and beautiful furniture and architectural details for our institutions for 150 years.

To see images of the Heritage Edition Display Case's quality workmanship and to learn more about the Saint John's Abbey monks' unique woodworking enterprise, visit www.sjawood.org.

DELUXE VIEWING STAND AND CABINET

The seven-drawer cabinet is made of quarter-sawn red oak with Welsh oak and ebony accents, reflections of the Minnesota and Wales collaboration. The sweeping curves of the framework and hexagonal knobs are architectural references to Saint John's Abbey's famous Bauhaus church built in 1960 by Marcel Breuer. Leather-lined drawer bottoms have finger recesses to assist in easily removing the volumes.

A support cradle beneath a hinged glass top makes it possible to display a single volume for the long term. The viewing stand and cabinet can be dissembled in three pieces for ease of transport.

DELUXE VIEWING STAND

The Deluxe Viewing Stand is available separate from the storage cabinet and displays and protects a single volume. With a hinged glassed top and a support cradle, the viewing stand offers the best height to read a volume displayed under glass. This is an option that showcases one volume while the other volumes are handled and stored with care.

STORAGE CABINET

This cabinet is made of the same quality materials and with the same features as the Deluxe Cabinet. The seven drawers are scaled to the size and heft of the individual volumes, with leather-lined drawer bottoms and finger recesses for easy retrieval. The cabinet is mounted on a simple base of red oak. Display stand and storage cabinet can be purchased as a set.

DISPLAY STAND

This stand is designed for smaller spaces or when it is desirable to provide more access to the volume, such as in liturgical or private residential settings. Made of quarter-sawn red oak, the display stand is designed to hold a single Heritage Edition volume. It retains the distinctive shape of the Deluxe Viewing Stand, but has a smaller footprint and an adjustable top so you can achieve the best viewing angle in your environment.
